### Order Information

#### Special Edition Giclée Reproduction Prints

The essence of the proposed Maine Woods National Park is forever captured in these fine art photographic prints by Thomas Mark Szelog. Select any photograph from the *Maine Woods National Park Photo-Documentation Project* website and have it created into a special edition Giclée fine art print. The artwork conveys a mastery of the medium and a unique personal vision. These superior prints are printed on canvas and custom gallery-wrapped on an internal frame. The prints are ready for hanging; no need for glass or framing. The canvas Giclée prints are professionally wrapped around a 1.5 inch deep frame with a black border. Pigmented inks and the very latest technology are used to produce Giclées which are not only faithful to the original but are also extremely archival. This is one of the very finest reproductions available today.
